

STAR **TECH**
COMPUTERS

About our company

Star tech computers is one of the Rajasthan's leading companies in the field of information technology. **Star tech computers** offers high-quality products and services within the areas of computer hardware and peripherals, having head office at Jaipur, the pink city of India.

Star tech computers. Offers a wide range of computer hardware and peripherals to the corporates, govt. Departments and retail customers.

Way back in 2001, a small spark of ambition in **Mohammed Farooq**, gave birth to the **Star tech computers**. The company started its work by providing personal computers. By maintaining good customer relations, has grown into a well-known computer hardware and peripherals dealer. It is being served by young and dynamic engineers having vast experience in the field of information technology. The having a vision already started carving the goals while the computer industry was still in the prematuring stage in rajasthan. Under the guidance of highly qualified advisors and supportive technically qualified engineers, the goals were already drawn to establish its name in the computer industry, and given best of the services to the clients. The company has planned to broaden its base all over the country by making it possible to give the best of services at the fastest possible time.

We have a qualified and dedicated workforce, which is dedicated to the company motto. They understand the need of the time and provide the best to our clients.

Star tech computers is now associated with a number of majors it companies dealing with computer hardware and peripherals. To state a few are Intel, Seagate, Samsung, Epson, Wipro, H.P. and having its independent services provided all over Rajasthan
